## Storm Window Energy Certification Letter

Kaufmann Window and Door Corporation, in conformance with our interpretation of IRS Notice 2009-26 regarding federal income tax credits for non-business property for Eligible Building Envelope Components, certifies that the following products qualify for the credit allowed under Internal Revenue Code Section 25C.

A storm window installed in combination with the exterior window over which it is installed, meets or exceeds the prescriptive criteria established by the International Energy Conservation Code (IECC) for the climate zone in which such storm window is installed;

The following products meet or exceed the IECC prescriptive criteria for the following climate zones: zone 4, zone 5, zone 6, zone 7 and zone 8 and meet or exceed Energy Star requirements. Kaufmann Viewmaster storm windows when using low emissivity glass finned weatherstrip and sash reinforcement clips.

Storm windows with other glazing options may meet either the 2001 Supplement of the 2000 International Energy Conservation Code or the 2004 Supplement of the 2003 International Energy Conservation Code prescriptive requirements for different climate zones.

Homeowners are advised to keep their purchase receipts. The taxpayer is advised to consult with their tax professional as their final authority.

Under penalties of perjury, I declare that I have examined this certification statement, and to the best of my knowledge and belief, the facts are true, correct and complete.
