Vinyl Window Energy Certification Letter

Kaufmann Window and Door Corporation, in conformance with our interpretation of IRS Notice 2009-26 regarding federal income tax credits for non-business property for Eligible Building Envelope Components, certifies that the following products qualify for the credit allowed under Internal Revenue Code Section 25C when installed in the United States pursuant to the criteria identified.

The following products have a U value less than or equal to .30 and a Solar Heat Gain Coefficient (SHGC) less than or equal to .30.

Kaufmann vinyl window series 2000 including models CA2050, CA2070 and CA2080 when using AFG Ti AC 36 low emissivity glass with argon gas fill.

Kaufmann vinyl window series CA1500, models CA1560 and CA1570 when using AFG Ti AC 36 low emissivity glass with argon gas fill.

Kaufmann vinyl window series 2200 including models CA2250, CA2270, and CA2280 when using AFG Ti AC 36 low emissivity glass with argon gas fill.

Kaufmann vinyl patio door model CA1580 when using AFG Ti AC 36 low emissivity glass with argon gas fill.

Homeowners are advised to keep their purchase receipts. The taxpayer is advised to consult with their tax professional as their final authority.

Under penalties of perjury, I declare that I have examined this certification statement, and to the best of my knowledge and belief, the facts are true, correct and complete.

Daniel W Padilla
President
Kaufmann Window & Door Corporation
